

Chicken Feeding Instructions

Thank you for caring for our babies!

Time of visit

The chickens are kept locked in their coop at all times over holiday periods (i.e. no need to let them roam free during the day). This is due to a cheeky resident Brush Turkey who is not very friendly to the poor chicks! As such, you will only need to visit ONCE during the day.

Entry

Enter via the gate off the verandah to the LEFT of the Unit 2 front door.

Food and Water

Each day, the chickens need:

- Grain (supplied in daily packs in the silver bin inside the coop)
- Yogurt or cheese (A big spoonful. Found in fridge in Unit 2 verandah)
- A range of fruit scraps/vegie scraps/rice/pasta in small quantities (from your home)
- Fresh water
- **Note: no bread**

Please place the food/water inside the feeder inside the coop and take care not to let them out.

Our chickens

Diggle Dee (large black one)

Jiggly Puff (large white one)

Ferbie (small brown/black one)

Thank you!!
